Multiplication - Times Tables to 15x Instructions

Welcome to the JP Method Math Practice workbook. This book extends the times tables beyond the usual 12x12, one table at a time, up to 15x. Each new table is followed by a revision section that mixes it with everything learned so far.

- Work through one section at a time, mastering each table before moving on.
- Focus on accuracy when solving each problem.
- Write the answer clearly in the box provided.
- Use scratch paper if needed for calculations.
- Keep practice sessions focused and regular for best results.
- Use the answer key at the back to check your work and learn from mistakes.
- Consistent practice builds fluency and confidence in math.

Fluency with the extended times tables is the foundation for large multiplication and division. Keep practicing, stay positive, and enjoy the challenge!
