Everyday Words - Book 1 Instructions

Welcome to JP Method Vocabulary Builder. This is a reading workbook. Each section teaches seven useful words, one small step at a time. You read each word with its meaning, see it in a real sentence from a classic book, and then meet it again and again in short exercises until it sticks. There is no writing of long answers - you read, match, and choose.

- Work through one section at a time, page by page, in order.
- Every word comes back many times: read it, match it, choose its meaning, fit it into a sentence. That repetition is the method - do not skip pages.
- From Section 2 onward each section starts with a Review page mixing words from earlier sections - spaced repetition, do not skip it either.
- Read each word aloud when you meet it.
- Each word also appears in a short sentence from a classic book, so you see it used in real reading.
- Use the answer key at the back to check yourself, then re-attempt anything you missed.

Vocabulary grows from short, regular practice. A few pages a day is enough. Keep going, and the words will become yours.
