

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Match each word to its definition by writing the correct number in the brackets:

Words		Definitions
A.	rhetoric	[] 1. Increasing gradually as more parts are added
B.	abstract	[] 2. A typical model or pattern of thinking
C.	cumulative	[] 3. The freedom to make your own decisions
D.	autonomy	[] 4. Existing as an idea rather than a physical object
E.	paradigm	[] 5. The art of using language to persuade people

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Match each word to its definition by writing the correct number in the brackets:

Words		Definitions
A.	coherent	[] 1. A statement that seems to contradict itself
B.	inference	[] 2. A conclusion reached from evidence and reasoning
C.	synthesis	[] 3. Logical and clearly connected as a whole
D.	paradox	[] 4. The combining of separate ideas into a whole
E.	ambiguous	[] 5. Having more than one possible meaning

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Match each word to its definition by writing the correct number in the brackets:

Words		Definitions
A.	speculation	[] 1. A mutual relationship between two changing things
B.	arbitrary	[] 2. Based on random choice rather than reason
C.	plausible	[] 3. Seeming reasonable and probably likely to be true
D.	correlation	[] 4. Forming ideas or theories without firm evidence
E.	quantitative	[] 5. Relating to amounts that can be measured in numbers

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Match each word to its definition by writing the correct number in the brackets:

Words		Definitions
A.	objective	[] 1. A subtle difference in meaning or expression
B.	nuance	[] 2. Based on observation or experiment rather than theory
C.	derivative	[] 3. Something based on or copied from another source
D.	empirical	[] 4. Not influenced by personal feelings or opinions
E.	juxtapose	[] 5. To place things side by side for comparison

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word to complete each sentence:

- 1) (invent, exaggerate, describe)

A reliable witness should _____ only what she actually saw.

- 2) (photograph, secure, repaint)

Before the storm, the residents rushed to _____ their homes.

- 3) (complicate, clarify, obscure)

The teacher used simple examples to _____ a difficult concept.

- 4) (worsen, improve, ignore)

Regular exercise can _____ your overall health over time.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word to complete each sentence:

- 1) (abandon, flood, rebuild)

The volunteers worked together to _____ the flooded village.

- 2) (simplify, muddle, lengthen)

The author revised the draft to _____ its confusing passages.

- 3) (hide, acknowledge, distort)

An honest report should _____ both the successes and the failures.

- 4) (conceal, withhold, offer)

A thoughtful mentor will _____ honest feedback to help you grow.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word to complete each sentence:

- 1) (inflate, condense, scatter)

The editor asked me to _____ the essay to make it shorter.

- 2) (worsen, ignite, ease)

The manager tried to _____ the tension between the two teams.

- 3) (support, undermine, disguise)

Scientists gather data to _____ their conclusions with evidence.

- 4) (preserve, neglect, destroy)

The museum works hard to _____ its fragile artifacts.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word to complete each sentence:

- 1) (assess, ignore, multiply)

A cautious investor will _____ the risks before committing funds.

- 2) (reassure, provoke, abandon)

Her calm manner helped to _____ the frightened crowd.

- 3) (celebrate, withstand, whisper)

The ancient bridge was too fragile to _____ heavy traffic.

- 4) (crumple, review, spill)

The lawyer will _____ the contract carefully before signing it.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Word Bank for Connecting Words:

which

- 1) **Fact: Rain is water that falls from clouds.**

Word choices: (cool, frozen, solid)

Rain is _____ water _____ falls from the clouds.

- 2) **Fact: A river is water that flows to the sea.**

Word choices: (moving, still, dry)

A river is _____ water, _____ flows down to the sea.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Word Bank for Connecting Words:

that where

- 1) **Fact: A dog is an animal that likes to run.**

Word choices: (friendly, boring, angry)

A dog is a _____ animal _____ likes to run.

- 2) **Fact: A school is a place where children learn.**

Word choices: (school, market, forest)

A _____ is a place _____ children learn new things.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Word Bank for Connecting Words:

where which

- 1) **Fact: A farm is a place where crops grow.**

Word choices: (farm, station, office)

A _____ is a place _____ farmers grow crops.

- 2) **Fact: The ocean is a large body of salty water.**

Word choices: (tiny, deep, dry)

The ocean is a _____ body of water, _____ is very salty.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Word Bank for Connecting Words:

when

- 1) **Fact: Night is the time when the sky is dark.**

Word choices: (Night, Dawn, Noon)

_____ is the time _____ the sky turns dark.

- 2) **Fact: Morning is the time when the sun rises.**

Word choices: (Evening, Midnight, Morning)

_____ is the time _____ the sun rises.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word from the choices to complete each sentence:

- 1) (inside, through, on)

The cat is _____ the table.

- 2) (inside, over, before)

The keys are _____ my bag.

- 3) (over, on, but)

I like apples _____ I do not like pears.

- 4) (over, from, on)

I got a letter _____ my friend.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word from the choices to complete each sentence:

- 1) (after, and, under)

We brush our teeth _____ dinner.

- 2) (on, over, before)

We wash our hands _____ we eat.

- 3) (because, over, in)

The shoes are _____ the box.

- 4) (under, or, because)

I am happy _____ it is my birthday.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word from the choices to complete each sentence:

- 1) (on, and, because)

We stayed home _____ it was raining.

- 2) (under, or, over)

I want tea _____ juice for breakfast.

- 3) (on, in, but)

He was tired _____ he still smiled.

- 4) (under, next to, over)

She sat _____ her mother at dinner.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Choose the best word from the choices to complete each sentence:

- 1) (through, and, under)

She looked _____ the window at the rain.

- 2) (under, before, on)

The ball rolled _____ the bed.

- 3) (over, at, because)

The bird flew _____ the tall tree.

- 4) (before, around, under)

The children ran _____ the park.

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Read the passage and then answer the questions.

Climate scientists analyze long-term patterns in temperature and precipitation to understand global change. Rising concentrations of greenhouse gases trap additional heat within the atmosphere. This warming contributes to melting ice caps, rising sea levels, and more frequent extreme weather. Reducing emissions and investing in renewable energy are considered essential strategies for mitigation.

- 1) Explain what gases trap additional heat in the _____?
- 2) Explain what must be reduced to slow the warming of the _____?
- 3) Explain what kind of energy is recommended for _____?

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Read the passage and then answer the questions.

The human immune system defends the body against harmful pathogens. White blood cells identify and destroy invading bacteria and viruses. When exposed to a new threat, the body produces antibodies that provide future protection. Vaccination harnesses this natural mechanism, training the immune system to recognize dangers before an actual infection occurs.

- 1) Explain what cells identify and destroy invading _____?
- 2) Explain what does the body produce to provide future _____?
- 3) Explain what trains the immune system before an actual _____?

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Read the passage and then answer the questions.

Oceans regulate the planet's climate by absorbing vast amounts of heat and carbon dioxide. Currents distribute warm and cold water around the globe, influencing weather patterns far inland. Rising temperatures, however, threaten fragile coral reefs and disrupt marine life. Scientists emphasize that protecting the oceans is inseparable from safeguarding the broader environment.

- 1) Explain what do oceans absorb to help regulate the _____?

- 2) Explain what fragile structures are threatened by rising _____?

Section 10. Extended Practice & Cumulative Review

Mixed review. Complete each exercise using the skills from the earlier chapters.

Read the passage and then answer the questions.

Photosynthesis is the biochemical process by which plants convert sunlight into usable energy. Chlorophyll within the leaves absorbs light and drives the transformation of carbon dioxide and water into glucose. This reaction releases oxygen as a byproduct, sustaining life across the planet. Understanding photosynthesis is fundamental to biology and to addressing global food security.

- 1) Explain what pigment absorbs light during _____?

- 2) Explain what gas is released as a byproduct of the _____?

- 3) Explain what sugar do plants produce from carbon dioxide and _____?
